SPEED AND POWER

The **WINTEX 1000s** combines the **power** of a hydraulic hammer with practical features such as **comfortable operation** from the driver's seat. The result: **maximum flexibility** for professional soil sampling down to 30 cm.

- Homogeneous samples - a **true picture of the soil's health**
- Sample even the toughest soils, from heavily compacted soils to frozen ground.
- Adjust the depth of the probe infinitely and conveniently from a monitor, ensuring **consistent sampling depth**.
- The **WINTEX 1000s** integrates with your existing GPS unit to **automatically georeference** all samples, making repeatable, year-to-year sampling seamless and simple. Use the data to create precise fertility and fertilizer prescription maps to **increase productivity in your fields**.

TECHNICAL SPECIFICATION

Depth:	0-30 cm
Layers:	1
Diameter probe:	26 mm with 1.5, 2.0 or 2.5 g slit
Driven by:	hydraulic hammer, hydraulic cylinder
Sampling speed:	10 sec.
Engine:	Honda GX200, 5.5 hp
Electric starter:	optional
Net weight unit:	85 kg

Volume/sample at a density 1:1:

1.5, 2.0 or 2.5 g/cm depending on the size of the probe

THE WINTEX CONTROL SYSTEM

Take control with ease - the **WINTEX control system** lets you adjust settings, enter presets, and manage every function effortlessly from one intuitive interface.

MOUNTING OPTIONS

UTV: side or back

ATV: side or back - depending on the load capacity

Pickup

Tractor, three-point hitch
