Precision Farming Starts Here.

DIG DEEPER. KNOW MORE. GET THE FULL PICTURE OF YOUR SOIL.

Work quickly, consistently, and across all soil types down to 120 or even 200 cm with the **WINTEX MCL3**. Whether you take soil samples for assessing **nitrate** levels or soil **carbon** content, the **WINTEX MCL3** delivers **accurate, repeatable results** that help you to make confident, data-driven decisions.

- Take homogenous samples and get a **true picture of your soils layers**.
- Sample even the toughest soils, from heavily compacted soils to frozen ground.
- Choose between our standard probe or use our probe with an integrated plastic liner.
- **Preserve the soil structure**, keep the **soil core intact and transport it** in air and water-sealed plastic liners.

Are you looking for a lighter soil sampler? The **WINTEX MCL3** is also available in a more economical version for vehicles with their own hydraulic system.

TECHNICAL SPECIFICATION

Depth:	0-120 cm or 0-200 cm
Layers:	four (manually)
Diameter probe:	35 mm or probe with 42 mm plastic liner
Driven by:	hydraulic hammer, hydraulic cylinder
Sampling speed:	60 sec.
Engine:	Honda GX300, 11 hp
Electric starter:	optional
Net weight unit:	325 kg / 420 kg

Volume/sample at a density 1:1:
2.6 or 3.0 g/cm, core sample in 42 mm plastic liner

MOUNTING OPTIONS

UTV: back
Pickup
Tractor, three-point hitch

CONTROL PANEL

Effortless control with smart technology:
the **WINTEX MCL3** is operated with an intuitive control panel and features an automatic valve that intelligently adjusts the speed to any soil type.
